

Dear Store Manager,

I would like to request that your store carries It's Not Bacon - A coconut based topper that tastes like bacon without being real bacon – It sounds to good to be true but it's not – It's Not Bacon is the real deal! Using only premium ingredients, It's Not Bacon is organic, non-GMO, always real and never artificial. No gluten, sugar alcohols or artificial sweeteners. Made with real ingredients that give me the opportunity to eat something I crave that I can't eat.

I frequently shop at your store and would love to find It's Not Bacon there. Please contact Everyday Superfoods, Inc directly at sales@edsfoods.com if you have any additional questions.
